## PROJECTS

**E-Commerce** 🔗 | ReactJs, JSON Server, Bootstrap

**NOV/2022 - JAN/2023**

- Developed an e-commerce platform to facilitate online buying and selling transactions.
- Designed and implemented interactive pages: Product list, Product details, Cart, User login.
- Improved proficiency in React.js through hands-on implementation of various features such as React Hooks, life cycle methods, states, forms, and events in a real-world project.
- [Download this project](#)

**Business Portfolio** 🔗 | ReactJs

**FEB 2023**

- As a junior front-end developer, I designed and built a professional website using modern web technologies, including HTML5, CSS3, JavaScript, and ReactJs
- This website has helped my friend establish an online presence, and showcase their products/services.
- Acquired expertise in deployment, SEO principles, including understanding Google crawler operations, and addressing performance and compatibility issues.

**E-commerce UI** 🔗 | HTML, CSS, JavaScript, Bootstrap

**FEB 2022**

- Demonstrated strong front-end skills through the creation of a visually pleasing and responsive E-Commerce UI using HTML, CSS, and JavaScript
- Developed an intuitive navigation structure for enhanced user experience.
- Implemented JavaScript for engaging user interactions, including hover effects and image sliders, contributing to an enriched and dynamic UI.
